

POSTER GUIDELINES

Poster presentations provide an opportunity for interchange of ideas between the presenter and audience. The poster should be outlined so the research can be understood without an oral explanation as a poster will also be viewed when the author is not present. **Presenter should NOT prepare a PowerPoint presentation.**

Presenters in RAPiD: Rapid Abstract Poster Discussion Session will need to prepare a 1-slide summary of their posters and submit it before the conference. More information to come.

Disclosure of Commercial Support and Relevant Financial Interests: Posters must briefly acknowledge: any commercial support of the original research presented; any financial interests held by the first, last, and corresponding author of the research presented, and the poster presenter if different, in a commercial entity that is relevant to the subject matter of the original research presented, within the past 12 months.

- This disclosure statement is commonly positioned in a box in the lower right of the poster.
- For poster disclosures the ATS defines commercial support as: any funding or in-kind support provided by a commercial entity to the authors noted above, or their institutions, in direct support of the original research presented. (Support provided by providers of clinical service directly to patients, such as authors' institutions, is not regarded as commercial support and does not require disclosure.)
- For poster disclosures the ATS defines relevant financial interests as including: 1) Any compensable services provided by the authors noted above to a commercial entity that has business interests relevant to the original research presented, such as a pharmaceutical company or medical device company, product manufacturer, investment firm, or law firm representing a relevant commercial entity, even if uncompensated. Examples of common industry-compensated types of relationships are consulting, advisory committees, speaking, expert testimony commissioned by a relevant company or its agents, travel support, and in-kind provision of equipment or services. (2) Any equity interests in an entity relevant to the original research presented, including stock, stock options, or other ownership interest, excluding general mutual funds; (3) Any intellectual property rights held directly by an author that are relevant to the subject matter of the original research presented, such as a patent, whether granted or pending, or a copyright.
- Poster disclosures should consist of the author's name followed by the name of the company involved and the type of relationship involved (examples above). Disclosures should not use company logos or brand or proprietary drug or device names.

SESSION:

- Scheduled abstracts will be grouped in themes.

Set-Up:

- Each poster board is numbered sequentially in the room/area of your session
- Locate your assigned poster board and assemble your poster at the following times:
 - AM Poster Discussion Sessions: 7:15-8:15
 - PM Poster Discussion Sessions: 1:15-2:15
 - Wednesday Poster Discussion Sessions: 12:30-1:30
 - Thematic Poster Sessions: 7:15-8:15
- Pushpins will be provided in the room/area.

AM Poster Discussion Sessions:

- Authors need to be by their posters during the viewing period: 9:15-10:00
- Authors need to be present during the discussion period: 10:00-11:15

PM Poster Discussion Sessions:

- Authors need to be by their posters during the viewing period: 2:15-3:00
- Authors need to be present during the discussion period: 3:00-4:15
 - Wednesday Poster Discussion Sessions:
 - Authors need to be by their posters during the viewing period: 1:30-2:15
 - Authors need to be present during the discussion period: 2:15-3:30

Thematic Poster Sessions (Sunday-Wednesday):

- Authors need to be by their posters during the viewing period: **11:15 AM-1:00 PM**

ATS 2018

Where today's science
meets tomorrow's care™

International Conference
May 18 - May 23
San Diego, CA

Take-Down:

- Please disassemble your posted materials at the end of the session
- Any materials left on the poster board at the end of the session will be removed and discarded
- **ATS will not be responsible for posters left at the end of session**

DESIGN:

Poster Board Dimension: Surface of the Board: 4 feet high and 8 feet wide [*1.22 meters and 2.44 meters*].

Recommended Poster Sizes:

- 48" w x 36" h (122cm w x 91cm h)
- 60" w x 36" h (152cm w x 91 cm h)
- 72" w x 36" h (183cm w x 91 cm h)

Header: Prepare a headline that identifies your research to be mounted at the top of the poster board. Include authors and their affiliations under the header.

Organization: The key is to achieve **clarity** and **simplicity**. Do not overload the poster. Use a coherent sequence (top to bottom or left to right) to guide the viewer through the poster. Use figures, tables, graphs and photographs when appropriate; keep text brief. It may be helpful to have materials pre-mounted on mounting boards.

All materials should be legible from a distance.

Typography: Avoid using abbreviations, acronyms and jargon. Do not use industry logos or brand names. Font should be consistent throughout.

QR Codes: It is appropriate to include QR Codes to link the audience to the poster data or a printable poster pdf. It is not acceptable to include QR Codes that link to an institution or company website.

COMPLETION:

Now ask:

1. What do I want the viewer to remember?
2. Is the message clear?
3. Do important points stand out?
4. Is there a balance between words and illustrations?
5. Is the pathway through the poster clear?
6. Is the poster understandable without oral explanation?

POSTER DESIGN SERVICE

More information to come.

PLEASE NOTE: There will be no printing service onsite through ATS/CTI.
