Lead Paragraph:

OVERLAND PARK, Kan., May 9, 2023 /PRNewswire/ -- [Softek Illuminate, Inc.](#), provider of enterprise follow-up management and discovery software, announces significant enhancements to their Illuminate Discovery360 Platform. New Workflow Conscious AI™ capabilities enable improved follow-up adherence of lung screening patients while tightly integrating the follow-up management of patients with Incidental Pulmonary Nodules. These new capabilities advance the capacity for all healthcare providers to develop a comprehensive lung nodule surveillance program that saves lives and generates new revenue streams.
