### **Lead Paragraph:**

**BOSTON, MA, May 15, 2023** — Kinaset Therapeutics, a clinical-stage biopharmaceutical company developing inhaled therapeutics to treat serious respiratory diseases, today announced an upcoming presentation at the ATS 2023 Respiratory Innovation Summit being held in Washington D.C. May 19-20, 2023. Robert Clarke, PhD, Chief Executive Officer of Kinaset, will deliver an oral and poster presentation on the latest clinical progress of Kinaset's lead candidate, KN-002, a novel, pan-JAK inhibitor being advanced for the treatment of moderate to severe asthma.
