Cutting-edge Education in the Exhibit Hall

Innovation Hubs

Innovation Hubs are learning experiences consisting of 15-20 minute sessions, led by subject-matter experts from industry. A Innovation Hub session consists of a 10-minute burst outlining a problem statement, mitigating factors, the host’s perspective/solution, and a challenge or question posed to attendees, who discuss for the remaining 5-10 minutes. Innovation Hub applications will open in October 2024 and are first-come, first-serve..

Industry Theaters

Enhance the attendee’s educational experience in the Exhibit Hall by hosting an ATS Industry Theater. Theater presentations are the optimal opportunity for industry participants to promote brand launches or current therapies, conduct a focused program on disease awareness, or discuss current pipeline activity. Presentations are either 30-minutes, 45-minutes or 60-minutes long and theater size ranges from 50-250 people. Industry Theater applications will open in September 2024 and are first-come, first-serve.

ATS provides boxed lunches for the theaters.

Fundraising in the Exhibit Hall

The ATS Research Program provides research grants to promising young investigators launching careers—100% of the donation goes to support research grants and awards.

The ATS is invested in your success and as such promotes your fundraising activity via the Assembly Newsletters, the ATS Daily Bulletin, Facebook, X, and the Know Before You Go email blast to all registered attendees.
