

# Record a video Apple Mac

If you're using an external video camera, make sure it's connected to your computer and turned on.

1. In the Photo Booth app  on your Mac, if you see the View Photo Preview button  or the View Video Preview button , click it to see the Take Photo button  or the Record Video button .

2. Click the Video button in the bottom left.

3. Click the Record Video button . Click the Stop button  when you finish recording.

# How to use your webcam to record videos in Windows 10, with the Camera app

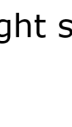

To record videos with the *Camera* app from Windows 10, switch to the "Take Video" mode. Click or tap the "Take Video" button from the right side of the app's window.

Then, click or tap the "Take

*Video*"  button once more.

If you want to pause the video recording, click/tap on the *Pause* button found on the right side.

Then, when you want to finalize your video, click or tap

 the *Stop*  button, which is found on the right side.
