## EPOSTER GUIDELINES

All **submitters\*** of accepted abstracts and case reports should submit an ePoster. Uploading an ePoster and presenting in person allows an abstract author to receive maximum exposure for their abstract during the ATS conference.

An ePoster can be uploaded in one of the following formats:

- One-page PDF alongside a 5-minute audio clip (audio clip is optional)
- A 5-minute MP4

The ePosters will be available on ATSConference365 and accessible to conference attendees starting Sunday, May 18 and available until March 31, 2026.

**Please Note:** uploading an ePoster does **not** replace your slide upload or printed poster presentations.

e-Posters are not regarded as publications. They are not considered as pre-publication, nor are they peer-reviewed or citable. e-Posters are restricted to “view only”. No download, print or sharing options are available.
